PREFACE

This publication provides a general summary of information concerning officially named freeways, highways, Blue Star Memorial Highways, highway structures, Safety Roadside Rests, and plaques. A separate section relating to historical usage names of highways is also included.

NAMED FREEWAYS

Freeway names have originated from four different sources: the Legislature, Highway Commission, local jurisdictions and through common usage.

In the Los Angeles area, the freeway system started as spokes radiating outward from the Civic Center, and place names denoting the outer termini became the freeway names. Examples are the Harbor, Santa Ana, and San Bernardino freeways.

Historically, freeways that were not named by official action acquired their names through usage and location. Examples are the Eastshore and Foothill freeways.

SCR 8 (1962 session) requested a study and report regarding the naming of freeways, highways, and expressways. The report dated November 1962 made recommendations and suggested criteria for naming highways and freeways in the State Highway system.

SCR 12 (1963 session) recognized the report and prohibited the further assignment of freeway names until the subject was studied by the Legislature.

Subsequent legislation (1967 session) requested the Department to examine, update, and expand on the 1962 report regarding the naming of freeways, highways, and expressways.

In March of 1968, the Department's report to the Legislature recommended:

- **Freeway naming should be vested in a single authority - the Commission.**
- **Naming should be provided on the basis of motorists' needs.**
- **Geographical or historical names are most suitable.**
- **Terminal or destination names are not suitable.**
- **Memorial names should be avoided (signing is prohibited on the Interstate system).**
- **A single name shall apply to the entire length of a route between logical termini.**
- **Names should be limited to a maximum of twelve letters not including the message "Freeway".**

The Legislature did not adopt the above criteria and there have been no further studies concerning the naming of highways, freeways and expressways. Since that time the Legislature passed numerous bills naming facilities in the State Highway system.

SOME PERTINENT REMARKS

Humboldt Bay Bridge (common reference) consists of three separate structures: Eureka Channel Bridge No. 04-0230, Middle Channel Bridge No. 04-0229 and Samoa Channel Bridge No. 04-0228. SCR 52, Ch 47-1971, Collier, named all three structures the Samoa Bridge. ACR 23, Ch 91-1977, Keene, named the Eureka Channel Bridge as the Meyer Bistrin Memorial Bridge and the Middle Channel Bridge as the Carl L. Christensen Memorial Bridge. There was no reference to the Samoa Channel structure; therefore, it retained the name Samoa Bridge until passage of ACR 132-1980, which named it the Richard R. Dinbo Memorial Span.

Only two Bay Bridges have been officially named: SCR 100, Ch 243-1955 named the Richmond-San Rafael Bridge. Later, SCR 19, Ch 76-1981 renamed it the John F. McCarthy Memorial Bridge. The Benicia-Martinez Bridge was named the George Miller, Jr. Bridge by ACR 59, Ch 84-1975. The remaining bridges are referred to in the legislative route descriptions for location purposes only, i.e., the Dumbarton and the San Mateo-Hayward Bridges.

George T. Hatfield Bridge, located in Merced County on State Route 165, was built in 1959. At that time Route 165 was a county road (Lander Avenue). The County Board of Supervisors may have named the bridge in honor of George T. Hatfield who was a State Senator. Merced County has also named a park in his honor.

Legislative Chaptered bills referenced to as "Ch" are Resolution Chapters and not Statute Chapters. These are summarized in the annual publications available in the CALTRANS Legal Library. House and Senate Resolutions referenced to as "HR" and "SR" are the official document of either Legislative body for naming roads, bridges, historic places, etc. Unlike a Legislative bill the Department is not required to comply with Legislative resolutions. The Resolutions are only printed in the Daily Journal of each respective body; therefore, the actual date of passage must be known for research in the Secretary of State Archives - Bill Room - 1025 'O' Street, Sacramento. Example: SR 138-1949 would be found in the Senate Daily Journal dated July 2, 1949. Any recording of a single Body Resolution must always include the date of action.
